ABOUT LITIGAForge AI

LitigaForge AI is an end-to-end legal technology platform built specifically for litigants, advocates, and legal professionals in Telangana and Andhra Pradesh. It combines cutting-edge AI (Claude Sonnet, Gemini 2.5 Flash, Groq Llama) with deep knowledge of Indian statute law, court procedures, and regional legal nuances to deliver intelligence that is both legally accurate and locally relevant.

Whether you are a first-time litigant who needs free legal aid, a seasoned advocate who wants AI-powered case strategy, or a business owner who needs a contract reviewed before signing — LitigaForge AI has a feature built for your exact situation.

Find

Discover verified advocates, precedents, legal aid contacts, and government resources in seconds.

Analyse

Run 5-agent AI analysis on your case. Score arguments. Simulate what-if scenarios.

Act

Draft notices, file complaints, track hearings, and collaborate securely with your advocate.

Explore any feature from the sidebar — everything is accessible immediately.
Get started in 5 steps. No legal fees. No credit card required. [litigaforge.com](#)

5 specialised AI agents analyse your case on a live interactive canvas

OVERVIEW

The ForgeBoard is LitigaForge AI's flagship feature — a multi-agent legal intelligence canvas. Five specialist AI agents work in parallel: Research (surfaces Indian precedents), Strategy (builds argument maps), Risk & Counter (identifies weaknesses), Drafting (auto-generates notices and pleadings), and Predictive (estimates outcome probability). Each agent streams its output live. Results are scored 0-100 and synthesised into a consensus legal strategy.

HOW TO USE — STEP BY STEP

- 1 Log in and click the Workspace icon (lightning bolt) in the sidebar.
- 2 Click '+ New Workspace' to start a session, or open an existing one.
- 3 Type your case facts in the 'Describe your case' panel on the left.
- 4 Click the green 'Run Agent Analysis' button.
- 5 Watch all five agents stream their analysis live on the canvas.
- 6 After completion, explore the canvas nodes and run 'What-If Simulation' to test arguments.
- 7 A Case Folder is created automatically — it stores all agent outputs and documents.

* REAL-WORLD USE CASE

Case: Family Pension Rejection — Lalitha Devi v. State of Telangana

Lalitha Devi's family pension claim was rejected because Form-5 was filed 7 days beyond the 90-day window after her late husband's retirement. She described the situation in ForgeBoard. The Research Agent surfaced CCS Pension Rules 1972 (Rule 54) and three CAT Hyderabad orders where courts condoned similar delays on grounds of ignorance. The Strategy Agent recommended a writ petition seeking quashing of the rejection with a prayer for retrospective pension release. Consensus strategy score: 78/100 — strong case.

PRO TIP

Use the 'Twin' tab inside Workspace to build a Legal Twin profile for personalised ongoing guidance across all your matters.

Client-Lawyer Matching

AI matches you with verified advocates — every match scored 0 to 100

OVERVIEW

LitigaForge AI's matching engine analyses your case requirements against all verified advocates on the platform. Each match receives a score from 0-100 based on practice area alignment, district proximity, language preference, years of experience, and current availability. You review AI-explained proposals, then accept or decline. Once accepted, a secure in-platform chat thread opens immediately.

HOW TO USE — STEP BY STEP

- 1 Go to 'Post a Case' in the sidebar and fill in case type, description, budget, and preferred district.
- 2 Enable 'Anonymous posting' to hide your identity until you choose to connect.
- 3 Submit. The AI engine scans all verified advocates and generates proposals.
- 4 Visit 'My Cases' and click 'View Proposals' to see your scored matches.
- 5 Click an advocate's card to read the AI explanation, bar number, ratings, and hourly rate.
- 6 Click 'Accept' to connect — a secure chat thread opens automatically.
- 7 Communicate, share documents, and confirm your engagement — entirely within LitigaForge AI.

* REAL-WORLD USE CASE

Case: Hit-and-Run Accident Compensation — Ravi Kumar, Secunderabad

Ravi Kumar's motorcycle was struck by a fleeing vehicle on NH-65. He posted a Motor Accident Claims case with a budget of Rs 5,000-10,000 and requested Telugu communication. The AI matched him with a Secunderabad advocate (score: 89/100) who specialises in MACT cases with 14 years' experience. The AI explanation cited alignment on location, language, and 12 previously won MACT petitions in the Ranga Reddy district. Ravi accepted the proposal and received a written case assessment the same afternoon.

PRO TIP

Verified advocates display a blue shield badge. Always confirm bar number and district specialisation before accepting a proposal.

Instant AI answers to any legal question — community knowledge base included

OVERVIEW

The Legal Q&A section allows anyone to ask a legal question and receive an AI-generated answer within seconds — no account required for basic queries. Answers draw on a multi-model AI cascade (Claude Sonnet, Gemini 2.5 Flash, Groq Llama) trained on Indian statutes, court rules, and regulatory guidelines. All answered questions are added to a community knowledge base organised by category.

HOW TO USE — STEP BY STEP

- 1 Click 'Ask' in the sidebar — no login required for basic queries.
- 2 Type your question in plain language — Hindi, Telugu, or English all work.
- 3 Click 'Ask'. The AI provides an answer with citations within 10–15 seconds.
- 4 Browse past answers by category: Consumer, Property, Labour, Criminal, Family, Tax, and more.
- 5 Upvote helpful answers to surface them for other users with similar questions.
- 6 Log in to save your questions and receive follow-up updates when related cases are decided.

* REAL-WORLD USE CASE

Query: GST Input Tax Credit Reversal — Priya Textiles, Warangal

Priya Sharma, proprietor of Priya Textiles, asked: 'Can a trader reverse ITC claimed on goods returned by buyer under GST?' The AI answered citing Section 16(2) and Rule 37 of CGST Rules 2017, explaining the ITC reversal obligation on the buyer's part when credit notes are issued, and the 180-day payment rule. It recommended filing a GSTR-2B reconciliation first and consulting a GST practitioner for Rule 37A implications. The question was saved to the Tax category and upvoted 14 times by other Warangal traders.

PRO TIP

Prefix your question with your state for localised answers — e.g., 'In Telangana, can a landlord...' gives more relevant jurisdiction-specific guidance.

Document Analyzer

Risk scoring, missing clauses, and recommendations for any legal document

OVERVIEW

Upload any legal document — an agreement, notice, contract, or court order — and the AI analyses it for risk exposure, missing standard clauses, non-standard terms, and compliance gaps. Each document receives a risk score from 0–100 and a prioritised recommendation list with plain-language explanations. No account is required for basic document scans.

HOW TO USE — STEP BY STEP

- 1 Click 'Review' (document icon) in the sidebar.
- 2 Paste the document text into the analysis box, or type a description of its contents.
- 3 Click 'Analyse Document'.
- 4 Review the Risk Score card: red (high risk 70–100), amber (medium 40–69), green (low 0–39).
- 5 Read the 'Missing Clauses' section to identify contractual gaps.
- 6 Expand each 'Recommendation' card for specific, actionable improvement suggestions.
- 7 Download or copy the full analysis report for use in negotiations or filing.

* REAL-WORLD USE CASE

Document: Rental Agreement — Syed Iqbal, Banjara Hills, Hyderabad

Syed Iqbal received a rental agreement for a commercial property in Banjara Hills. He pasted the 12-page document into the Analyzer. The AI flagged a Risk Score of 67/100, citing four issues: (1) no force majeure clause, (2) ambiguous lock-in period language, (3) no dispute resolution mechanism, and (4) missing TDS deduction clause under Section 194-I of the Income Tax Act. Recommendations included negotiating a 3-year lock-in cap and adding a mandatory arbitration clause under the Arbitration & Conciliation Act, 1996. Syed used the report to negotiate three amendments before signing.

PRO TIP

For best results, paste the complete document text — the AI can process up to 20,000 characters and detects subtle risks that quick reads miss.

Search Indian case law — precedents from SC, High Courts, and Tribunals

OVERVIEW

The Judgment Finder connects to India's largest legal database (Indian Kanoon) to surface relevant case law. Search by keyword, party name, statute section, or court. Each result includes a curated AI digest — facts, ruling, key legal principle, and citation — plus a direct link to the full judgment text. The AI also highlights how each precedent applies to your specific facts.

HOW TO USE — STEP BY STEP

- 1 Click 'Judgments' in the sidebar.
- 2 Enter keywords, party names, or the section of law you need precedents for.
- 3 Click 'Search'. The AI returns up to 10 curated, relevance-ranked precedents.
- 4 Click any result to see the full digest: facts, held, key principle, and citation.
- 5 Click 'View on Indian Kanoon' for the full text of the judgment.
- 6 Bookmark important judgments from your profile (logged-in users).
- 7 Inside ForgeBoard, the Research Agent automatically surfaces judgments during analysis.

* REAL-WORLD USE CASE

Search: Consumer Forum — Deficiency in Service, Vijaya Electronics, Nellore

T. Subrahmanyam purchased a refrigerator from Vijaya Electronics, Nellore, that broke down within 6 months. The seller refused to honour the warranty. He searched 'deficiency in service consumer forum refrigerator warranty' on the Judgment Finder. The AI surfaced NCDRC orders including Whirlpool of India Ltd. v. Pooja Enterprises where compensation was awarded for warranty refusal. The digest noted the 2-year limitation period under the Consumer Protection Act, 2019. Subrahmanyam filed in the Nellore DCDRC with the citation and received an ex-parte order within 90 days.

PRO TIP

Use the Judgment Finder inside a ForgeBoard session — the Research Agent links precedents directly to your case argument map.

Draft legal notices, complaints, petitions, and responses in minutes

OVERVIEW

The AI Legal Chat is a real-time drafting assistant trained on Indian legal templates and court formats. Choose from four starter templates — Demand Notice, Reply to Notice, Bail Application, Legal Opinion — or start a free-form conversation. The AI adapts every draft to your specific facts and jurisdiction. All outputs carry an automatic legal disclaimer as required by Bar Council guidelines.

HOW TO USE — STEP BY STEP

- 1 Click 'Legal Chat' (chat bubble icon) in the sidebar.
- 2 Choose a template: Demand Notice, Reply to Notice, Bail Application, or Legal Opinion — or type freely.
- 3 Describe your situation, parties involved, dates, and the relief you seek.
- 4 The AI generates a draft in standard Indian legal format within seconds.
- 5 Ask follow-up questions to refine specific clauses, add parties, or change the tone.
- 6 Click 'Copy' to copy the draft text for use in any document editor.
- 7 Always have a licensed and enrolled advocate review the final draft before filing or dispatch.

* REAL-WORLD USE CASE

Draft: Legal Notice for Cheque Dishonour — K. Raghunath, Vijayawada

K. Raghunath lent Rs 3,00,000 to a business associate whose cheque was returned dishonoured on presentation. He opened AI Legal Chat, selected 'Demand Notice', and described the transaction dates, cheque number, bank return memo details, and the drawee's Vijayawada address. The AI generated a Section 138 Negotiable Instruments Act, 1881 notice within 60 seconds — correctly formatted with a 15-day demand period and Vijayawada territorial jurisdiction. His advocate made two minor edits and dispatched it by registered post. The associate paid in full within the notice period.

PRO TIP

The AI remembers your chat thread context — reference earlier drafts in the same session to build complex documents incrementally.

Client Dashboard & Case Tracking

Visual timeline for every active case — hearing dates, documents, and advocate chat

OVERVIEW

The Client Dashboard is your command centre for all active legal matters. Each case displays a real-time stage timeline (Intake > Filed > Hearing > Judgment), the next hearing date, your assigned advocate's contact details, pending match proposals, and all documents linked to that case. Upload documents directly, and message your advocate via the secure in-platform chat.

HOW TO USE — STEP BY STEP

- 1 Log in as a Client — the dashboard is your landing page automatically.
- 2 The left panel lists all your active cases. Click any case card to expand the details.
- 3 The stage timeline bar highlights the current stage in amber.
- 4 Click 'Proposals' to review and act on any pending advocate match proposals.
- 5 Click 'Documents' to upload case documents — PDF, JPG, PNG, and DOCX supported.
- 6 Tap 'Contact Advocate' to open the secure in-platform chat with your assigned lawyer.
- 7 The NALSA helpline (1516) is always displayed at the bottom for free legal aid access.

* REAL-WORLD USE CASE

Case Tracking: Cheque Bounce Recovery — M. Anitha, Karimnagar

M. Anitha had a Section 138 NI Act complaint filed in the Karimnagar Judicial Magistrate Court. Her advocate updated the case stage to 'Hearing' after summons was served. Anitha could see on her dashboard that the next hearing was set for 22 July and the matter was at Stage 3 of 5. She uploaded the original cheque image and bank return memo directly to the case folder from her phone. Her advocate acknowledged receipt via in-platform chat and confirmed the documents were sufficient for the next date.

PRO TIP

Enable push notifications in Settings > Notifications to receive automatic reminders for upcoming hearing dates — never miss a court date.

Find and contact verified advocates across Telangana and Andhra Pradesh

OVERVIEW

The Advocate Directory lists all verified lawyers registered on the platform — complete with bar council registration number, practice areas, districts covered, languages spoken, years of experience, hourly rate, and current availability. Client ratings from past matters are displayed on each profile. Filter by any combination of criteria to find exactly the right advocate for your situation.

HOW TO USE — STEP BY STEP

- 1 Click 'Lawyers' in the sidebar.
- 2 Use the filter row to narrow by: District, Practice Area, Language, and Budget range.
- 3 Browse advocate cards — verified advocates show a blue shield badge.
- 4 Click any card to see the full profile: bio, bar number, ratings, hourly rate, and languages.
- 5 Click 'Post a Case' to formally submit a requirement that matching advocates can respond to.
- 6 Advocates can self-register via 'Register as Advocate' — free for all enrolled lawyers.

* REAL-WORLD USE CASE

Search: Property Dispute Advocate — S. Padmavathi, Guntur

S. Padmavathi needed an advocate for a property partition suit in the Guntur District Court. She filtered the directory for District: Guntur, Practice Area: Property Law, Language: Telugu. Six verified advocates appeared. She selected one with 22 years' experience and a 4.8 client rating from 31 matters. His Bar Council of Andhra Pradesh registration number was independently verifiable. She posted the case and received his proposal within 4 hours with a clear fee estimate for the first two hearings.

PRO TIP

Advocates with the 'Verified' badge have had their bar enrolment number cross-checked by the LitigaForge AI team.

Free legal help via NALSA, TSLSA, and all 8 district legal services authorities

OVERVIEW

LitigaForge AI provides a built-in legal aid eligibility checker and a complete DLSA directory. If you qualify under NALSA / TSLSA income or category criteria, you are entitled to free legal representation under the Legal Services Authorities Act, 1987. The platform lists all 8 Telangana District Legal Services Authority offices with addresses, phone numbers, and emails.

HOW TO USE — STEP BY STEP

- 1 Click 'Legal Aid' in the sidebar.
- 2 Run the Eligibility Wizard — answer 5 questions about income, beneficiary category (SC/ST/Women/Disabled/Child), and case type.
- 3 The wizard shows whether you qualify for free legal aid and the legal basis.
- 4 If eligible, your nearest DLSA address, phone number, and email are displayed.
- 5 Call NALSA Toll-Free: 1516 (available 24x7) for immediate guidance.
- 6 TSLSA offices covered: Hyderabad, Warangal, Karimnagar, Nalgonda, Nizamabad, Khammam, Medak, Adilabad.

* REAL-WORLD USE CASE

Eligibility Check: Domestic Violence Protection — Sunita Bai, Adilabad

Sunita Bai, a Scheduled Tribe woman from Adilabad with a monthly income below Rs 1 lakh, was facing domestic violence and needed urgent legal protection. She ran the Legal Aid Eligibility Wizard on LitigaForge AI. The wizard confirmed eligibility on two grounds: Scheduled Tribe category and domestic violence case type. The platform displayed the Adilabad DLSA address and direct phone number. She called 1516, was connected to a duty advocate within 20 minutes, and filed for a Protection Order under the Protection of Women from Domestic Violence Act, 2005 — at zero cost.

PRO TIP

Women, children, persons belonging to SC/ST communities, and persons with disabilities always qualify for free legal aid regardless of income level.

10 AI-powered legal templates — filled dynamically with your specific facts

OVERVIEW

LitigaForge AI provides 10 free, professionally drafted document templates that the AI fills with your specific case details. Templates cover the most common Indian legal documents. Each one generates a formatted, ready-to-print document with standard clauses, proper court heading, and party details auto-populated. No design or drafting experience required.

HOW TO USE — STEP BY STEP

- 1 Click 'Free Documents' in the sidebar.
- 2 Browse the 10 template cards — each card shows the document type and typical use case.
- 3 Click 'Generate' on your chosen template.
- 4 Fill the dynamic form — fields are pre-populated where your profile data is available.
- 5 Review the live preview on the right panel as you type.
- 6 Click 'Download PDF' to save the finished document.
- 7 For fully custom documents beyond these templates, use AI Legal Chat (Feature 06).

* REAL-WORLD USE CASE

Template: Affidavit of Income — Ramesh Goud, Nizamabad

Ramesh Goud needed an affidavit of income to apply for an OBC non-creamy layer certificate in Nizamabad. He opened Free Documents, selected the 'Affidavit of Income' template, and filled in his name, father's name, complete address, and annual income figure. The AI generated a properly formatted affidavit citing the Telangana jurisdiction with the standard verification clause. Ramesh printed it, got it notarised at the local Sub-Registrar office, and submitted — saving Rs 500 he would otherwise have paid a typing centre.

PRO TIP

Templates available: Demand Notice, Income Affidavit, Rent Agreement, Power of Attorney, Partnership Deed, NDA, Sale Agreement, Legal Heir Certificate, Bail Application, and Consumer Complaint.

Subscription Plans

Three plans — Free, Professional, and Advocate Pro

OVERVIEW

LitigaForge AI offers three subscription tiers. The Free plan gives full access to Legal Q&A, Judgment Finder, Legal Aid, and basic templates. The Professional plan (Rs 999/month) adds unlimited AI analysis sessions, expanded document uploads, and priority matching. The Advocate Pro plan (Rs 2,499/month) is for practising advocates — it adds the full Lawyer Dashboard, case management, client portal access, and a verified badge that increases placement in search results.

HOW TO USE — STEP BY STEP

- 1 Click your plan badge (top right corner) or go to 'Subscription' in the sidebar.
- 2 Compare the three plan tiers side by side on the plan comparison table.
- 3 Click 'Upgrade' on your chosen plan.
- 4 Pay securely via Razorpay — UPI, card, net banking, and wallets all accepted.
- 5 Your new tier activates instantly after Razorpay payment verification.
- 6 To downgrade, select a lower tier — the change takes effect at your next billing cycle.

* REAL-WORLD USE CASE

Upgrade: Free to Professional — Meera Reddy, Hyderabad

Meera Reddy used the Free plan for two months to research her property dispute and run three ForgeBoard sessions. When her advocate requested 14 document uploads (Free plan limit: 5) and she needed priority matching for a second legal opinion, she upgraded to Professional at Rs 999/month via UPI. The upgrade activated instantly. She uploaded all 14 documents and received three new advocate proposals within 2 hours. The first month's subscription cost less than a single consultation at a law firm.

PRO TIP

Advocate Pro subscribers receive a verified badge, priority placement in the directory, and the complete Lawyer Dashboard for managing cases, documents, and client communications.

Judgment Digest & Email Alerts

Curated daily legal intelligence delivered to your inbox every morning at 7 AM IST

OVERVIEW

LitigaForge AI sends a daily Judgment Digest email every morning with new Supreme Court, High Court, and tribunal judgments relevant to your chosen categories. Subscribe once, select your areas of law, and receive concise AI-generated summaries with key principles and citation links — no full-text reading required. Subscription is confirmed via double opt-in to ensure only genuine subscribers receive the digest.

HOW TO USE — STEP BY STEP

- 1 Go to 'Judgments' and scroll to the 'Subscribe to Daily Digest' section.
- 2 Enter your email address and select your preferred legal categories.
- 3 Click 'Subscribe'. A confirmation email arrives within 2 minutes — click the link to activate.
- 4 Every morning at 7:00 AM IST, receive a digest with 3–5 new judgments.
- 5 Each digest entry includes: case name, court, date, key holding, and a 'Read Full Judgment' link.
- 6 To unsubscribe, click 'Unsubscribe' in any digest email — takes effect immediately with no data retained.

* REAL-WORLD USE CASE

Digest Alert: Property Law Update — Advocate G. Srikanth, Warangal

Advocate G. Srikanth subscribed to Property Law and Revenue Law categories. On a Tuesday morning the digest included a fresh Telangana High Court order interpreting Section 89 of the Transfer of Property Act. He read the 80-word AI summary before reaching the courthouse, noted the key principle, and cited it in his arguments in the Warangal District Court that afternoon. His opponent had not yet found the judgment. The client commented on his thorough preparation. Srikanth credits the daily digest for keeping him ahead in a fast-moving practice area.

PRO TIP

The Judgment Digest is completely free for all users — no subscription required. Manage your category preferences at any time from your profile settings.
